Subject: Somalia

So far, about 90 000 people have been affected by flooding in Somalia, where moderate Deyr rains have started to hit the southern regions of the country. As a result of the flooding, 42 000 people have been displaced.

El Niño conditions are expected to further aggravate the situation across the country and may affect up to 900 000 people by the end of 2015.

Is the European Union going to provide humanitarian aid to the people of Somalia?
