Subject: Misuse of EU funds in Bratislava

In its answer to question E-010658/2015, the Commission stated that it looks seriously into cases of inappropriate use of EU funds. It further stated that, even though it had no detailed information on the cases mentioned, it was in regular contact with the competent Slovak authorities in order to resolve any outstanding issues.

1. Did the contact with the Slovak authorities mentioned by the Commission take place, and does the Commission now have more precise information on the misuse of EU funds in Bratislava?
2. Has a specific investigation been conducted into the cases mentioned in question E-010658/2015? If so, what was the result?
