Subject: Creation of a European Accessibility Fund

Accessibility for people with disabilities is a priority. The EU's funds enable investment in it. The Common Strategic Framework for the ESI Funds lays down that 'all products, goods, services and infrastructures that are open or provided to the public and are cofinanced by the ESI Funds are accessible to all citizens including those with disabilities'.

Can the Commission provide an exhaustive list of the European financing available and the EU initiatives (legislative or otherwise) designed to promote accessibility?

What is the Commission's view on the creation of a special European Accessibility Fund?
