Subject: Work of TFBI in the Republic of Croatia

Considering the earlier information from the Commission on States included on special measures via TFBI – Working Group for better implementation, namely the group for flexible action to improve implementation in absorption of cohesion policy resources, I want to ask the following:

Is the Republic of Croatia still included in the activities of the Working Group for better implementation of cohesion policy?

Which concrete activities have been implemented through cooperation with Croatian authorities for cohesion policy, and are Croatian authorities making any progress in that regard?
