Subject: Financing for SMEs in Navarre

Spanish SMEs' access to financing has improved considerably. There was a 57% increase between 2013 and 2014, from EUR 4.8 billion to EUR 7.603 billion. The financing was made available by the European Investment Bank, through credit lines extended to a raft of different recipients.

Can the Commission please provide the figures on SME financing in the Autonomous Community of Navarre? Are the figures for the 2015 financial year also available?
