

Question for written answer E-004352/2016
to the Commission
Rule 130
Renaud Muselier (PPE)

Subject: Delivering multimodal ticketing

The European Parliament, in its report on delivering multimodal integrated ticketing in Europe, called on the Commission to develop a repository of good practices for locally, regionally or nationally run journey planner projects, to serve as a basis for their implementation across the EU.

Has the Commission begun this work? How is it proceeding and when does it think it will be able to report on the matter to Parliament?
