Subject: Implementation of the Professional Qualifications Directive

Can the Commission confirm which sectors are priority sectors for the implementation of common training frameworks as defined in Directive 2005/36/EC, as amended by Directive 2013/55/EU, on the recognition of professional qualifications?

Given that a number of health professions enjoy the automatic recognition of professional qualifications provided for in Annex V of the Directive, can the Commission confirm whether it wishes to establish common training frameworks for these health professions or if it will focus on the professions that do not benefit from automatic recognition?
