

**Question for written answer E-006746/2016
to the Commission**

Rule 130

Ismail Ertug (S&D), José Blanco López (S&D), Massimo Paolucci (S&D), Lucy Anderson (S&D), Carlos Zorrinho (S&D), Christel Schaldemose (S&D) and Olga Sehnalová (S&D)

Subject: Commission requests for information from type-approval authorities

Article 3 of Regulation (EC) No 692/2008 states that 'At the request of the Commission, the approval authority shall provide information on the performance of NOx aftertreatment devices and EGR system at low temperatures'.

1. How does the Commission define 'low temperatures' in this regulation?
2. Since the regulation entered into force, how many requests for such information has the Commission issued, and to which authorities? If there have been none, why?
3. What unit within the Commission is responsible for the enforcement of Regulation (EC) No 692/2008?
