

**Question for written answer E-006927/2016
to the Commission**
Rule 130
Laurențiu Rebega (ENF)

Subject: EFSI

In his State of the Union address, Commission President Jean-Claude Juncker announced plans to extend the life of the European Fund for Strategic Investments (EFSI) to 2022, doubling investments raised by it from EUR 315 billion to EUR 630 billion.

The EFSI has to date been funded largely by amounts deducted from other programmes, together with EIB subsidies.

In view of this:

How will the Commission obtain the necessary resources to double the life of the EFSI without affecting non-reimbursable funding earmarked for cohesion policy or the common agricultural policy?
