

**Question for written answer E-006957/2016
to the Commission**

Rule 130

Jean-Luc Mélenchon (GUE/NGL)

Subject: Transparency and glyphosate

The Glyphosate Task Force (a consortium of glyphosate producers) has at last made available for consultation a partial version of the studies on which the decision to relicense glyphosate was based.

Can the Commission demand that this research be published, rather than merely made available for consultation subject to conditions?

Can it demand publication of the full text of the studies, as opposed to the censored version currently available?

Can the Commission shed any light on how the Glyphosate Task Force will use personal data that it collects about individuals who apply to consult the information made available?
