

Question for written answer E-007072/2016
to the Commission
Rule 130
Jiří Maštálka (GUE/NGL)

Subject: Marrakesh Treaty for visually impaired persons

I welcome the Commission's proposal for a regulation on this matter; however, I am concerned about the proposed obligation for libraries and other authorised entities to publish detailed information demonstrating compliance of their applicable processes with the regulation.

Is the Commission aware that this will require bureaucratic paperwork and unnecessary costs for these non-profit, public service bodies?
