

Question for written answer E-007272/2016
to the Commission
Rule 130
Eleni Theodorou (ECR)

Subject: Problems at Deutsche Bank

The problems at Deutsche Bank are common knowledge. There is even talk of intervention by the German State.

- Could the Commission tell us exactly what is going on, given that this issue concerns the banking structure as a whole, and to what extent a 'bail-in' procedure similar to the one used in Cyprus will be applied?
