

Question for written answer E-007970/2016
to the Commission
Rule 130
Edward Czesak (ECR)

Subject: Regulating broadband access

Mr Commissioner,

have all steps been taken to make the public aware of all the benefits (economic growth, territorial cohesion, employment) that the use of broadband internet brings?

What is the Commission's position on the idea of allocating funds under the planned budget to ensuring that private businesses and public administration access to the latest technology?

Does the Commission consider it appropriate to allocate funds under the budget to ensure access to broadband internet, particularly in rural areas?
