

**Question for written answer E-008154/2016
to the Commission**

Rule 130

Tomáš Zdechovský (PPE), Monica Macovei (ECR), Patricija Šulin (PPE) and Michaela Šojdrová (PPE)

Subject: EU-wide highway vignette

People who travel across Europe by car are forced to buy different highway vignettes in every Member State, although this is both impractical and very expensive. The introduction of a single European highway vignette could be an effective solution that would improve the free movement of people in the EU and also harmonise conditions throughout the Member States.

Is the Commission aware of this problem?

Is the Commission planning to take any steps regarding this issue?
