Subject: VP/HR - US bombings in Iraq

Various reports claim that more than 60 civilians, including women and children, have been killed and another 200 have been injured in coalition air attacks led by the United States in Mosul and its surrounding areas. The bombing of residential areas, schools and other civilian buildings by the United States, both in Mosul and in other places within the Iraqi province of Nineveh, has been recorded since the start of the offensive to retake Mosul.

Today is 27 October 2016. Does the Vice President / High Representative have details of the civilian victims of the US-led coalition in Iraq? And also in Yemen?
