Subject: VP/HR - Yemen

A Saudi Arabian-led coalition supporting Yemen's government against Houthi rebels has declared a 48-hour ceasefire that began on Saturday, according to local media. The exiled President has asked for a pause 'in response to UN and international efforts to bring peace to Yemen'.

More than 7 000 people have been killed in Yemen and nearly 37 000 wounded since the coalition intervention began, according to the UN.

What measures are being taken into consideration by the VP/HR to contribute to the international efforts of bringing peace to Yemen?
