Subject: Use of the Pre-Accession Assistance instrument in Croatia 2007-2013

Since the end of 2016 is approaching, projects funded during programming period 2007 – 2013 should be launched, and the statistics on the use of structural funds are available. By the second half of 2013, Croatia had used its funds from the Pre-Accession Assistance instrument (IPA).

Can the Commission say:

How much funding did Croatia use under the Pre-Accession IPA programme in the period 2007 -2013 in absolute and relative terms?

How much use did Croatia make of individual operational programmes (transition assistance and institution building, cross-border cooperation, regional development, human resources development, rural development) available under the IPA during that period?
