

**Question for written answer E-000494/2017
to the Commission**
Rule 130
Francesc Gambús (PPE)

Subject: State of infringement proceedings in the area of energy

The Commission has nine ongoing infringement procedures against Spain for non-compliance in relation to energy, which is a priority area for the current Commission. Three of them have been brought on the basis of reasoned opinions, to which the Spanish Government must respond within two months, failing which the Commission could decide to refer the Member State to the European Court of Justice.

1. What response has the Spanish Government given to the reasoned opinion sent by the Commission concerning non-compliance with the Energy Performance of Buildings Directive?
2. What response has the Spanish Government given to the reasoned opinion sent by the Commission on the poor transposition of Directives 2009/72/EC and 2009/73/EC into Spanish law?
3. What response has the Spanish Government given to the reasoned opinion sent by the Commission concerning non-compliance with the Directive on safety of offshore oil and gas operations and amending Directive 2004/35/EC?
