

**Question for written answer E-000708/2017
to the Commission**

Rule 130

Therese Comodini Cachia (PPE)

Subject: 5G and education

5G as an evolution of mobile broadband will be a key enabler of the future digital world. The next generation of this ultra-high broadband infrastructure should support the transformation of processes in all sectors (education, healthcare, energy, utilities, manufactory, transportation, automotive, online gaming).

How does the Commission intend to ensure the continuous education of skilled people with regard to the new system?

Does the Commission intend to make available 5G development curricula in its special partnership with EIT Digital Academy?
