to the Commission  
Rule 130  
Sorin Moisă (S&D)**

Subject: Trends towards e-mobility and the paradigm shift

According to *Le Monde*<sup>1</sup>, the introduction of electric cars will have a significant impact on the relative utilisation of capital and labour in the automotive industry.

Has the Commission carried out a study of the potential negative effects of e-mobility on employment in the car manufacturing and auxiliary industries in Europe?
