

**Question for written answer E-003334/2017
to the Commission**
Rule 130
José Blanco López (S&D)

Subject: Infestation of *Tecia solanivora*

In its answer to written question E-000977/2017, the Commission states that in October 2016 Spain carried out an audit 'to evaluate the situation and the official controls against *Tecia solanivora*,' and that when the audit report is available, the 'situation will be analysed and discussed in a forthcoming meeting of the Standing Committee on Plants, Animals, Food and Feed.'

Given the amount of time elapsed since the completion of the audit and the situation in communities such as my own, Galicia, could the Commission provide the preliminary findings of this audit and say whether a meeting of Standing Committee has been arranged to address this matter?
