

**Question for written answer E-003362/2017
to the Commission**
Rule 130
András Gyürk (PPE)

Subject: Nordstream II - Status report

According to Parliament, the construction of the Nordstream II gas pipeline is jeopardising security of supply in the EU. Despite this, the preparation of the project continues.

Based on the information available to the Commission, what is the current status of the project and what will Commission's position be in the coming negotiations?
