to the Commission**
Rule 130
Francesc Gambús (PPE)

Subject: Termination of public works contracts in the Mediterranean Corridor

The Spanish government's Secretary of State for Infrastructure announced today that the Ministry of Public Works would be terminating two of the current contracts for the Mediterranean Corridor, specifically the sections Martorell - Castellbisbal and Vandellòs - Castellón de la Plana, and maintained that this would not affect the development of the works or compliance with the schedule.

In view of the above, will the Commission say:

- Has the Spanish government informed the Commission of these terminations of contracts?
- Will it ask the competent authorities to justify these measures?
- Does it agree that these events will not lead to delays in meeting the deadlines for completion of the Mediterranean Corridor projects?
