Subject: Non-designation of Romanian programme authorities

In its answer to question E-001161/17, the Commission writes that 'Romania...still has to complete designation of programmes' authorities, thus meanwhile the Commission cannot reimburse any expenditure incurred by this M[ember] S[tate]'.

Can the Commission please specify which programme authorities Romania has not yet designated?

Within what specific funding areas has the Commission therefore been unable to reimburse expenditure incurred by Romania?

What does the fact that programme's authorities have not been designated have to do with enabling people in Romania to apply to the EU for funding?
