to the Commission**

Rule 130

José Blanco López (S&D)

Subject: Irregularities in operational programmes in Galicia

In its answer to my question No E-003251/2017, the Commission said that, as regards the Structural Funds, since 2009 the Spanish authorities have reported 421 irregularities in connection with operational programmes for the programming periods 2000-2006 and 2007-2013. Recovery procedures are still ongoing for 102 of the irregularities reported. As regards the European Fisheries Fund, 34 irregularities have been reported, with recovery procedures still ongoing for 32 of these cases. With reference to agricultural policy, 139 irregularities have been reported since 2009, with 76 recovery procedures still ongoing.

Could the Commission say how much money is being claimed back for each category cited above in the recovery procedures still ongoing?
