

Question for written answer E-006902/2017
to the Commission
Rule 130
Emma McClarkin (ECR)

Subject: Directive 76/768/EEC

I write on behalf of my constituent who has expressed concern over the enforcement of Council Directive 76/768/EEC on the use of animals for testing cosmetic products.

Given that this directive bans the use of animals for the purposes of testing cosmetic products across the EU, what action is the Commission taking to ensure that it is observed and enforced in all Member States?
