

**Question for written answer E-007897/2017  
to the Commission**

Rule 130

**José Ignacio Salafranca Sánchez-Neyra (PPE)**

Subject: Public procurement at sub-federal level in EU-Mexico agreement

The EU and Mexico are expected to reach an agreement soon to update their trade relations. This may even be achieved in the seventh round of negotiations this week in Brussels. Yet, despite the imminent agreement, we remain unaware of progress on some relevant parts of the negotiation.

Could the Commission provide information on the current situation of public procurement at sub-federal level?
