

**Question for written answer E-001069/2018
to the Commission**

Rule 130

Jozo Radoš (ALDE) and Ivan Jakovčić (ALDE)

Subject: Utilisation of funds from the 'Competitiveness and Cohesion' operational programme 2014-2020

Under the 'Competitiveness and Cohesion' operational programme 2014-2020, Croatia has EUR 6.881 billion at its disposal, of which EUR 4.321 billion comes from the European Regional Development Fund (ERDF).

Through the Croatian Ministry of Economy, Entrepreneurship and Crafts' E-impuls programme, grants with a total value of HRK 250 000 000 have been approved for Croatia.

The E-impuls programme is intended to stimulate initial investments linked to the establishment of a new business or the expansion of an existing business's capacity in the sectors of manufacturing and production services by allocating grants to Croatian micro-enterprises and small companies.

What is the total amount of funds that Croatia has utilised in 2015, 2016 and 2017 under the E-impuls programme?
