to the Commission**

Rule 130

José Blanco López (S&D)

Subject: Industrial strategy

Before the presentation of the Commission communication 'A renewed EU industrial policy strategy', both Parliament and the Council, in July and November of 2017 respectively, called on the Commission to develop a new Union strategy and action plan for a coherent and comprehensive industrial policy aimed at reindustrialising Europe. This action plan should be accompanied by an evaluation of the impact of integrating the industrial policy with the EU strategical initiatives, and should propose ways of making the integration of industrial competitiveness more effective.

In the light of these recommendations, when does the Commission hope to present this set of actions?
