

**Question for written answer E-002939/2018
to the Commission**

Rule 130

Sorin Moisă (PPE) and Dan Nica (S&D)

Subject: Implementation of divestment commitments in case M.8444 - ArcelorMittal/Ilva

On 7 May 2018, the Commission approved under the EU Merger Regulation the acquisition of Ilva by ArcelorMittal on several conditions, among which that it divest production capacities at the integrated steel plant in Romania (Galati). On 8 May 2018, the Commission approved the appointment of Grant Thornton UK LLP as monitoring trustee.

1. Will the monitoring trustee also act as divestiture trustee, overseeing the sale of the steel plant in Romania (Galati)?
2. If not, does the Commission intend to appoint a different divestiture trustee? What procedure will be used for the appointment?
3. Does the Commission have in place alternative solutions for continuously verifying each step of the process to ensure divestment commitments are respected?
