Subject: 2014-2020 Operational Programme 'Research and Innovation' in Slovakia

The 2014-2020 operational programmes in Slovakia include 'Research and Innovation', for which Slovakia plans to allocate EUR 2.2 billion of European funding over the programming period.

How much of this European funding has Slovakia used so far from the package earmarked for the Operational Programme 'Research and Innovation'?

What is the value of the corrections agreed to by the Commission in relation to the drawdown of European funding for this operational programme in the current programming period?
