

**Question for written answer E-003948/2018
to the Commission**
Rule 130
Mary Honeyball (S&D)

Subject: Digital transformation in healthcare

The Commission plans to complete the Digital Single Market, i.e. in the area of health policy. To this end, three priorities have been defined:

1. Citizens' secure access to their health data, including across borders;
2. Personalised medicine through shared European data infrastructure;
3. Citizen empowerment with digital tools for user feedback and person-centred care.

In this respect, what progress has the Commission hitherto made in the area of telemedicine?
