Subject: VP/HR - Floods and landslides in Japan

This month, following record levels of rainfall, Western Japan has faced the worst floods and landslides to hit the entire country in the last 36 years, resulting in more than 200 deaths and leaving 240 000 homes still without running water.

In the light of these events, the VP/HR stated that the EU would stand ready to provide assistance for the Japanese people. What measures are planned for this?
