Answer given by Mr Oettinger
on behalf of the European Commission
(29.11.2018)

In line with sound financial management, EU bodies maintain a register of their fixed assets as well as recording them in their accounting system in accordance with international accounting rules.

The value of the EU's property, plant and equipment at 31 December 2017 as included in the 2017 EU accounts was EUR 10.7 billion.
