

**Question for written answer E-005072/2018  
to the Commission**  
Rule 130  
**José Blanco López (S&D)**

Subject: Limia

In its response to my question E-003523/2015, the Commission indicated that the first progress report for the project 'Development of demonstrative solutions to reduce the water contamination of agrarian origin in the Limia basin' had not yet been submitted and that, consequently, it was 'too soon to comment on the results'.

In light of the time which has now passed, can the Commission say what assessment of the implementation of this project it has made and what impact it considers it could have in improving the environmental situation in the Limia basin?
