Answer given by Ms Bulc
on behalf of the European Commission
(4.4.2019)

The Commission would like to refer the Honourable Member to the answer to written question E-006378/18, which explains the actions taken by European Aviation Safety Agency (EASA) and Commission on this matter.

Based on those continuous efforts, EASA has informed the Commission that it is now confident that a common understanding of this subject has been reached in Europe and as a consequence that it does not see any safety threats linked to release to service practices.
