to the Commission**
Rule 130
Ulrike Rodust (S&D)

Subject: Allocation of autonomous tariff quotas for certain fishery products among the Member States

Council Regulation (EU) 2015/2265 of 7 December 2015 opened and provided for the management of autonomous EU tariff quotas for certain fishery products for the period 2016 to 2018. The quotas will be managed according to the chronological order in which applications for release into free circulation are received.

Will the Commission, as the institution responsible for managing the tariff quotas, provide an overview showing the quantity allocation of quotas in accordance with Regulation (EU) 2015/2265 per Member State for each year?
