Question for written answer E-001760/2019 to the Commission
Rule 130
Richard Sulík (ECR)

Subject: Inadequately answered question E-000712-19 on mystery shopping under the CPC Regulation

In my parliamentary question E-000712-19, I asked whether, following the entry into force of the new CPC Regulation¹, national laws banning CPC authorities from carrying out mystery purchases in the protection of consumer rights if their execution requires the use of an identity card or payment card are in line with this Regulation (and thus with European law).

In its reply, the Commission summarised the meaning of the mystery shoppers referred to in the CPC Regulation but did not reply to either of the two questions I had raised.

I would like to ask for a clearer answer to the two questions I raised in my written question E-000712-19.
