

**Question for written answer E-002560/2019
to the Commission**
Rule 138
Alfred Sant (S&D)

Subject: Bluefin tuna input and farming

Can the Commission explain the reasoning behind its current allocation of bluefin tuna input and farming capacities under Regulation 2016/1627?

Can the Commission explain what mechanism was used last year for the allocation of additional input and farming capacity to bluefin tuna farms after the publication of the farming management plan and the Fishing Opportunities Regulation?

Can the Commission explain why the changes made to any additional input and farming capacity in 2018 were not reflected in the Fishing Opportunity Regulations?
