SUGGESTIONS

The Committee on Economic and Monetary Affairs calls on the Committee on Budgetary Control, as the committee responsible, to incorporate the following suggestions into its motion for a resolution:

1. Recalls that the European Parliament was a key driver in the efforts to set up a new and comprehensive European System of Financial Supervision (ESFS) in the aftermath of the financial crisis and in creating, as part of ESFS, the European Banking Authority (EBA) in 2011;
2. Underlines that EBA's role in promoting a common supervisory regime across the internal market is essential in order to ensure financial stability, a better integrated, more efficient and safer financial market, as well as a high degree of consumer protection in the Union by promoting fairness and transparency on the product and financial services market;
3. Stresses that EBA's work is of a purely technical nature and that key political decisions are the prerogative of the Union legislator;
4. Points out that EBA, when carrying out its activities, needs to pay particular attention to upholding the safety and soundness of the financial sector, ensuring compatibility with Union law, respecting the principle of proportionality and complying with the fundamental principles of the internal market for financial services; underlines that EBA, on that basis, must strive to achieve outcomes that are unambiguous, consistent, coherent and free of superfluous complexity;
5. Points out that it is of particular importance that provisions drafted by EBA are designed in a way that allow them to be equally applied by smaller entities;
6. Acknowledges that, in the opinion of the European Court of Auditors, EBA's transactions underlying the annual accounts for the year ended 31 December 2014 are legal and regular in all material respects;
7. Emphasizes that, on all issues linked to EBA's resources, it has to be ensured that the mandate can consistently be fulfilled and that the practical limits of independent, reliable and effective supervision are not set by budgetary constraints;
8. Takes note of the conclusion of the European Court of Auditors, in its special report 2014/05, that, overall, EBA's resources during its start-up phase were insufficient to allow it to fulfil its mandate; acknowledges that the setting-up phase of ESFS has still not been completed and therefore notes that the tasks already entrusted to EBA, as well as additional tasks envisaged in ongoing legislative work, require an adequate level of staff, in terms of both numbers and qualifications, and funding to allow for satisfactory supervision; underlines that, in order to uphold the quality of the supervisory work, it is very often the case that an expansion of tasks has to be matched by an expansion of resources; emphasises, however, that any potential increases in EBA's means must be explained thoroughly and accompanied by rationalisation measures wherever possible;
9. Stresses that, while making sure that all assignments are carried out in full, EBA must

carefully stick to the tasks assigned to it by the Union legislator and must not seek to de facto broaden its mandate beyond those assignments; stresses that, when carrying out its work and in particular when drafting technical standards and technical advice, EBA needs to timely, regularly and comprehensively inform the European Parliament about its activities; regrets that this has in the past not always been done;

10. Stresses that when drafting implementing legislation, guidelines, questions and answers or similar measures EBA must always respect the mandate attributed by the Union legislator and must not seek to set standards in areas where legislative processes are still pending;
11. Regrets to acknowledge that EBA has not managed to keep the Union legislator informed in a sufficient and comprehensive manner about all details of its on-going work;
12. Regrets to acknowledge that in some occasions documents have only been transmitted to the Union legislator after they have been leaked to the wider public and deems this to be unacceptable;
13. Concludes that EBA's mixed financing arrangement, which relies heavily on contributions from national competent authorities, is inadequate, inflexible, burdensome and a potential threat to its independence; therefore calls on the Commission, in the White Paper planned for Q2 2016 and in a legislative proposal presented by 2017, to launch a different financing arrangement based on a separate budget line in the budget of the Union and on the complete replacement of the contributions from national authorities by fees paid by market participants;
14. Calls on EBA to supplement communication with the EP on draft advice or technical standards relating to the calibration of prudential formulae with a full description of the data and methodology used in such calibrations;
15. Welcomes the increased transparency about the EBA's meetings with stakeholders.
