(1) Article 174 of the Treaty on the Functioning of the European Union ("TFEU") provides that, in order to strengthen its economic, social and territorial cohesion, the Union is to aim at reducing disparities between the levels of development of the various regions and the backwardness of the least favoured regions or islands, and that particular attention is to be paid to rural areas, areas affected by industrial transition, and regions which suffer from severe and permanent natural or demographic *handicaps*. Article 175 of the TFEU requires that the Union is to support the achievement of these objectives by the action it takes through the European Agricultural Guidance and Guarantee Fund, Guidance Section, the European Social Fund, the European Regional Development Fund, the European Investment Bank and other instruments. Article 322 of the TFEU provides the basis for adopting financial rules determining the procedure to be adopted for establishing and implementing the budget and for presenting and auditing accounts, as well as for checks on the responsibility of financial actors.
