

ORAL QUESTION H-0488/06

for Question Time at the part-session in June 2006
pursuant to Rule 109 of the Rules of Procedure
by Anne Jensen
to the Council

Subject: Trans-European Networks

In the recently adopted European Union Financial Framework for 2007-2013, the Trans-European Networks were allocated, at the instigation of the Council, a ceiling of EUR 7 billion. That was significantly less than the Commission had originally estimated as necessary for the 30 priority projects, approved by the Council.

What priorities does this reflect on the part of the Council? Will there have to be priorities among the 30 prioritised projects? Will some projects have to be postponed – and if so, which? Or will additional national funding have to be found?
