# Committee on the Internal Market and Consumer Protection

## DECISIONS Coordinators' meeting Brussels

Tuesday, 21 November 2017 from 17.00 to 17.50  
In the Chair: Anneleen Van Bossuyt

### Part I: items for decision with debate

#### I.1 Adoption of the draft agenda

The agenda was adopted as shown in these decisions.

#### I.2 Announcements

##### I.2.1 Main items of the Conference of Committee Chairs

None.

##### I.2.2 Conflicts with other Committees

Title	Procedure n°	State of Play
Proposal for a Regulation of the European Parliament and of the Council <b>on the import of cultural goods</b> (CM)	2017/0158 (COD) - SWD(2017) 262 final - COM(2017) 375 final	<p>The proposal sets out the conditions and procedure for the entry of cultural goods into the customs territory of the Union, in order to ensure that imports of cultural goods are subject to uniform customs control measures, thus deterring the importation of illegal items. The proposal was referred to INTA as lead committee, with IMCO for simple opinion.</p> <p>The proposal provides for the empowerment to the Customs authorities to retain any goods that would not be compliant. Standardised documentation requirements at importation regarding the identity of every item would be created. The Customs authorities would perform the checks on the basis of these documents. Exchanges of information and practices between national administrations and capacity building</p>

		<p>programs, modelled on the programs already existing within Customs 2020, are also considered. All of these aspects fall fully within the exclusive remit of IMCO. The coordinators decided at their meeting of September to claim full competence on the proposal.</p> <p>A draft letter agreed with coordinators was sent to the CCC. The Chair of INTA replied to the letter reaffirming their belief that the lead corresponds to INTA on the basis of the link they perceive in the proposal with the EU trade policy.</p> <p>With a view to finding an agreement, the Chair of IMCO called for a meeting between both Chairs and Secretariats, that took place on 8 November. The objective was not only to examine this concrete proposal but to explore general solutions to the streak of conflicts between INTA and IMCO on customs matters arisen since 2014, when the modification of the rules of procedure introduced the "external aspects of customs" as an INTA competence.</p> <p>The Chair of INTA expressed his view that INTA should assume responsibility on <b>Customs management of both import and export</b> of goods, and restrict IMCO to intra-EU matters and coordination of contacts between national custom administrations. IMCO secretariat requested an answer from INTA on a proposal dated from February 2017 on the distribution of competencies. Failing progress, the Coordinators will be invited to express their view on IMCO's competence on the UCC.</p>

<p>Regulation for a <b>reform of ENISA and voluntary framework for EU-wide cybersecurity certification of ICT products and services</b> (MDB/ASJ)</p>	<p>2017/0225 (COD) - COM(2017) 477 final</p>	<p>As agreed by Coordinators on 25 September, the IMCO Chair requested the application of Rule 54 in relation to the proposed Regulation; The letter was sent on 3 October, with exclusive competence for Title III (framework for cybersecurity certification). IMCO stressed its horizontal role on cybersecurity in the internal market, reflected in IMCO's leading role on the 2013 cybersecurity strategy as well as the NIS Directive. Secondly, IMCO pointed towards its competence in relation to standardisation, market surveillance and ensuring the quality of goods and services. Title III of the proposal falls in the heart of IMCO's competence in improving market surveillance and preventing fragmentation in the internal market.</p> <p>On 13 October, ITRE sent a letter to the CCC refusing IMCO's request, mainly arguing that ITRE is responsible for cybersecurity matters and because Title III concerns the security of telecommunications networks, it is the exclusive competence of ITRE. Instead, ITRE offered IMCO Rule 54 association with shared competences on Title III.</p> <p>On 3 November, the IMCO Chair sent a new letter to the CCC insisting on its initial request. This letter was circulated to Coordinators on 25 October.</p>
<p>Communication: <b>“Making the most of NIS</b> - towards the effective implementation of the NIS Directive” (BH/MDB)</p>	<p>COM(2017)476 final</p>	<p>On 13 October, ITRE sent a letter to the CCC challenging the attribution of this Communication (and the Joint Communication) to IMCO. Its arguments were the same as those relating to the Joint Communication (see above).</p> <p>On 30 October, the IMCO Chair sent a letter to the CCC, making very clear that the NIS Directive was an IMCO file and IMCO is undisputedly responsible for following-up its implementation.</p>

<p>Joint Communication: “Resilience, Deterrence and Defence: <b>Building strong cybersecurity for the EU</b>” (BH/MDB)</p>	<p>JOIN(2017)450 final</p>	<p>After initial attribution to IMCO, the Referrals Unit re-attributed the file to ITRE on 25 October.</p> <p>Before that re-attribution (13 October), ITRE sent a letter to the CCC challenging the attribution of this Joint Communication (and the NIS Communication) to IMCO. ITRE argued that its competences under Annex V RoP were expanded in 2014 to include “security aspects” of ICT networks, and that ITRE is therefore now the lead committee on cybersecurity matters.</p> <p>On 30 October, the IMCO Chair sent a letter to the CCC, both challenging the re-attribution to ITRE and refuting the arguments made in ITRE’s letter of 13 October. IMCO argued: 1) that any change to ITRE’s competences does not negate IMCO’s competences for removing obstacles to the internal market, which cybersecurity undoubtedly is; 2) that IMCO led the work on the 2013 Cybersecurity strategy. The two draft letters were circulated to Coordinators on 25 and 26 October. Coordinators will find in <b>annex 8</b> the finalised version of the letters.</p>
<p>Regulation on a <b>framework for the free flow of non-personal data in the European Union</b> (MDB/BH)</p>	<p>2017/0228(COD) COM(2017)495 final</p>	<p>After initial attribution of the file to ITRE, the Referrals Unit re-attributed the file to IMCO on 5.10. By letter of 13.10, ITRE challenged the attribution to IMCO, arguing that the subject matter of the proposal relates to “ICT networks and services” and “the Union’s industrial policy” which it argued are ITRE issues under Annex V.</p> <p>On 6 November, the IMCO Chair sent a letter to the CCC refuted ITRE’s claim, arguing: 1) that the policy objective of the proposal is to tackle market fragmentation and improve the internal market; 2) that the proposal builds on the eCommerce Directive and Services Directive; 3) that IMCO traditionally takes the lead on administrative cooperation in the internal market. This letter was circulated to Coordinators on 25 October.</p>

<p>Proposal for Regulation on a <b>pan- European Personal Pension Product (PEPP)</b> (ZGV)</p>	<p>2017/0143 (COD) COM (2017)343</p>	<p>Following the IMCO coordinators decision from September 2017, a request for Rule 54 (with exclusive and shared competence along past retail fin. services files) was sent to ECON Chair and communicated to the CCC Secretariat. ECON Chair rejected the request in his letter of 8.11.2017. IMCO Secretariat is drafting a response letter, invoking the IMCO competence for the protection of economic interests of consumers, as stipulated in the Rules of Procedure, therefore insisting on maintaining its request for Rule 54 for the areas of the PEPP proposal relevant for protection of economic interests of consumers and for UCPD matters in the proposal.</p>
<p>Own-Initiative Report on <b>Dual quality of products</b> (ASJ)</p>		<p>On 7 November, IMCO Chair sent a request to the CCC for authorisation to draw up an Own-Initiative Report under Rule 52 on "The Commission Notice on the application of EU food and consumer protection laws – dual quality of products".</p> <p>On 13 November, ENVI sent a letter to the CCC contesting IMCO's request, arguing that the Commission Notice (put in the title of the IMCO request) deals with two out of three EU regulations, which are under ENVI exclusive competence. The INI-report should therefore fall within ENVI's remit.</p> <p>On 14 November, IMCO secretariat sent a clarification to ENVI, explaining that the issue of dual quality of products has long been on the agenda of IMCO due to the general consumer concerns about the misleading information on the Single Market - not only within the food sector. The Commission Notice is only a first step. Consequently, IMCO has asked for a change in title into "Dual quality of products in the internal market", so it becomes clear that the IMCO INI-report will deal with a larger scope of products than food products.</p> <p>ENVI has informed IMCO that they will put the subject on their coordinators meeting on 21 November.</p>

Coordinators considered all of the above conflicts and decided unanimously:

- a. on Free flow of data and cybersecurity to offer ITRE the outline described in the note by the secretariat as a last resort, before requesting a recommendation by the CCC.
- b. at the request of Mr Danti, IMCO rapporteur, to complain about the lack of information and consultation on the organisation of a hearing on the “Cybersecurity Act” on Monday 27 November 2017.
- c. to reject any attempt by INTA to have a role on the Union Customs Code, its implementation and Customs management, which must remain core IMCO competences.
- d. to insist on IMCO’s association on the PEPP file of ECON for issues concerning the protection of the economic interests of consumers.
- e. to await ENVI’s response on the “Dual quality of products” INI.

Coordinators also stressed that IMCO should keep an eye on other committees planned activities, in order to alert Coordinators and ensure the adequate protection of IMCO’s competences.

**I.4. Miscellaneous**

#### **I.4.1 Chairing of the trilogues**

The Chair informed Coordinators that she wishes to chair as many trilogues as possible, insofar as her agenda allows. Given the increasing frequency of trilogue negotiations as the legislative term draws to a close, it may however not be possible for the Chair to be present at each trilogue. It is often valuable that the Parliament's team is led by the same person, to give continuity to the negotiations and help facilitate a final agreement. Therefore, when the Chair is not able to chair the series of trilogues from the beginning, the Chair will, in consultation and agreement with the rapporteur, ask a vice-chair to replace her for the whole duration of the trilogues of a dossier.

#### **I.4.2 Consumer Law Ready event under the auspices of IMCO (MD)**

Coordinators endorsed the request by BEUC for the EP to host in its premises a stock-taking conference in fall 2018 of a project developing training modules for SMEs on compliance with consumer rights, set up by the ConsumerLaw Ready consortium (BEUC, UEAPME and EuroChambres) and funded by the European Commission.

The conference will be organised by BEUC, with the support of the consortium and Commission's DG Justice, under the auspices of IMCO.

#### **I.4.3 STOA: proposals for new projects (DA)**

Coordinators took stock of STOA's (Science and Technology Options Assessment) invitation for the submission of proposals for new STOA projects for the second half of the legislature. The deadline for submission of proposals is 15 December 2017. Proposals should be made directly to the STOA secretariat using the application process detailed in the letter from the STOA Chair (see annex).

#### **I.4.4 Car re-registration: Commission's decision to withdraw proposal (BM)**

Coordinators supported fully the rapporteur and chair and agreed to oppose the European Commission's proposal, included in Annex 4 of its Work Programme 2018, for the withdrawal of the proposal for a Regulation simplifying the transfer of motor vehicles register in another MS within the SM.

Coordinators also asked the Secretariat to invite Commissioner Bieńkowska and to inform her services of IMCO's objection to the withdrawal.

#### **I.4.5 Study - IMCO contribution to growth (ZGV)**

Coordinators agreed on the proposal to update the previous IMCO study which mapped the impact of measures in the 7<sup>th</sup> legislature in the area of SM on growth, and

to extend the study to cover the 8th legislature. The study should be ready by the end of 2018.

#### **I.4.6 Request for a legal opinion on the legal bases of Single Market Information Tool (SMIT) (BM)**

Coordinators agreed to request an opinion from the EP Legal Service on the adequacy of the TFEU articles chosen for the proposal for a Regulation setting out conditions and procedure by which the Commission may request undertakings and associations of undertakings to provide information in relation to the internal market and related areas, also known as Single Market Information Tool (SMIT).

The proposal is based on Articles 43(2), 91, 100, 114, 192, 194(2) and 337 TFEU.

Coordinators took note that the Rules of Procedure provide in Rule 39(2) that, *“if the committee disputes the validity or the appropriateness of the legal basis [...] it shall request the opinion of the committee responsible for legal affairs”*. However, as there was no decision to dispute the validity of the legal basis they expressed the wish for a technical legal analysis by the Legal Service of the EP. Coordinators also noted that if they were to decide, at a later stage to dispute the legal basis, they will have to wait for the delivery of JURI’s opinion, which may impact on IMCO’s timetable for adoption.

**II.6.1 Performance audit of the Court of Auditors on the EU system of ex-post review of legislation, preliminary findings - A(2017)9665) (CM)**

PV\1141143EN.docx

25/30

PE615.317v01-00

**Observations:** The audited period refers to 2014-2016. Not all of the preliminary findings are of relevance to IMCO since out of the sample of 14 Directives and Regulations of DG GROW audited only 8 were under IMCO lead. It contains nevertheless some interesting conclusions for our committee.

The Court has found that although on average, 80% of the Directives and 65% of the regulations contain a review clause, there is not common definition of what a review clause is and it still remains a disparity of wording of the review clause. Three varieties exist: Evaluations, Implementation reports and Application reports. The auditors insist that the co-legislators should always react to the ex-post reviews made by the EC regardless of the type of review, and that every EP Committee should have it as an agenda item.

The audit also evaluates the REFIT exercise, concluding that the criteria by which some initiatives are selected and classified as REFIT is not clear. The Commission was not able to inform the Court of Auditors on what criteria lead to the classification of an initiative as REFIT. In addition to this, the DGs do not treat REFIT evaluations differently from non REFIT ones (for instance, repeals and recasts are sometimes considered REFIT and sometimes not).

The case of the Late Payments Directive 2011/7 is mentioned. IMCO was the lead committee at the EP. An Ex-post Impact Assessment was carried out by the EP (published in July 2015), and at the same time DG GROW was reviewing the Directive (since it provided for an Interim report). The report was upgraded to the status of REFIT evaluation by the Commission. The EIA was timely, but it seems that the Commission did not make use of that input. Greater coordination and a common interinstitutional line on what is a review would be of benefit (the Interinstitutional Agreement now in force should help avoid these situations).

**Decision:** For info at this stage, EP's official comments to the preliminary findings should come from EPRS/Ex-post evaluations unit.
