(1) On 17 November 2017, the European Pillar of Social Rights was jointly proclaimed by the European Parliament, the Council and the Commission as a response to social challenges in Europe. The twenty key principles of the pillar are structured around three categories: equal opportunities and access to the labour market; fair working conditions; social protection and inclusion. The twenty principles of the European Pillar of Social Rights should guide the actions under the European Social Fund Plus (ESF+). In order to contribute to the implementation of the European Pillar of Social Rights the ESF+ should support investments in people and systems in the policy areas of employment, education and social inclusion, thereby supporting economic, territorial and social cohesion in accordance with **Article 174** TFEU.

Amendment

(22a) In light of the persistently high levels of child poverty and social exclusion in the EU (26.4% in 2017), and the European Pillar of Social Rights which states that children have the right to protection from poverty, and children from disadvantaged backgrounds have the rights to specific measures to enhance equal opportunities, Member States should allocate at least 10% of ESF+ resources under shared management to European Child Guarantee scheme for the eradication of child poverty and social exclusion. Investing early in children yields significant returns for children and society as a whole. Supporting children to develop skills and capabilities enables them to develop their full potential, become active members of society and increase their chances on the labour market as young people.
