Subject: International Roma Day

In its resolution of 15 April 2015 on the International Roma Day – anti-Gypsyism in Europe and EU recognition of the memorial day of the Roma genocide during World War II, Parliament took a strong stance against anti-Gypsyism by expressing its deep concern at the rise of anti-Gypsyism in Europe and underlining the need to combat anti-Gypsyism at every level and by every means. Parliament stated that the recognition of the Holocaust of Roma during World War II and the establishment of a dedicated European memorial day would constitute an important symbolic step in the fight against anti-Gypsyism and contribute to general knowledge of Roma history in Europe, and called on Member States to follow its lead.

1. How is the Council ensuring that the fight against anti-Gypsyism is being mainstreamed into all EU policies relating to the inclusion of Roma? How is the Council monitoring and assessing the compliance of EU policies and national policies with fundamental EU values with a specific focus on rights of minorities and non-discrimination?
2. Can the Council report on progress made so far and provide further recommendations for achieving the objectives set out in the Commission communication on an EU Framework for National Roma Integration Strategies by 2020 (COM(2011)0173)? Since Parliament's resolution was adopted, what steps have been taken to improve Roma integration and effectively combat anti-Gypsyism, including institutionalised anti-Gypsyism?
3. What further steps have been taken in Council to promote and agree on the establishment of the European Roma Holocaust Memorial Day?
