Subject: Review of the Posting of Workers Directive

As it states in its 2015 Work Programme, the Commission proposes to carry out a 'targeted review' of the Posting of Workers Directive this year.

In this connection, I should like to ask the Commission:

1. What is or are the principal objective(s) of reviewing the Posting of Workers Directive?
2. How will the review be conducted?
3. Is it possible that the review – should it find this justified – will lead to the amendment of the Posting of Workers Directive?
