

**Question for written answer P-005567/2015
to the Commission**

Rule 130

Barbara Matera (PPE)

Subject: Documents required for a full analysis of the Gino Lisa case

Commissioner Vestager's answer dated 25 March 2015 to a previous question by the author (E-002214/2015) stated that the Puglia regional authorities had not yet provided the Commission with enough information to determine whether an EUR 14 million FAS (underutilised areas fund) grant from the Italian Government for the extension of the Gino Lisa (Foggia) airport runway can be awarded to Puglia under current State aid legislation.

The Commission's response stated only that the relevant Italian authorities had not provided enough information for a proper analysis to be made of the situation.

1. Exactly what information is missing?
2. Which documents do the regional authorities need to provide in order for it to be determined whether the funding is consistent with the State aid rules?
