Subject: European Mobility Card

On 30 June 2015 Commissioner Thyssen announced publicly in Parliament that a call for tenders for Member States to set up a system for the European Mobility Card would be launched in the summer of 2015.

1. When exactly will the Commission open and close the call, what will be the minimum and maximum amount of funding that Member States will be able to claim and under what conditions?
2. Will any co-financing by the Member States be required?
3. In view of the complexity of the initiative, the number of stakeholders that will have to get involved (e.g. different ministries in the participating Member State) and the potential need to amend national legislation in the participating Member States, will the call be open long enough for Member States to be able to make all the necessary preparations?
