

**Question for written answer P-004059/2016
to the Commission**
Rule 130
Ivan Jakovčić (ALDE)

Subject: EU Tobacco Products Directive

The EU Tobacco Products Directive requires each Member State to align their national legislation with the aforementioned directive by 20 May 2016. Croatia has done practically nothing to introduce the provision stipulating that the human health effects of smoking must be prominently displayed on cigarette boxes.

What steps does the Commission intend to take in the event that Member States fail to respect the specified deadlines?
