Subject: Progress report on the Republic of Moldova

Once a year, the Commission and the Vice-President of the Commission / High Representative of the European Union for Foreign Affairs and Security Policy (VP/HR) published reports assessing the progress made by southern and eastern neighbours towards the objectives of the Action Plans and Association Agendas.

The latest reports were adopted on 25 March 2015 and referred to 2014. According to the November 2015 joint communication on the review of the European Neighbourhood Policy, there will no longer be a single set of progress reports on all countries simultaneously. Instead, the EU will seek to develop a new style of assessment, focusing specifically on meeting the goals agreed with partners.

Such reports are of fundamental importance for the work of Parliament, the other EU institutions and the countries concerned.

When can we expect the publication of a new assessment on the Republic of Moldova?
